

Data Clean[®]

The Controlled Environment Specialists

A cost effective way to maintain important air flow dynamics within a Data Center. These EziBlank[®] Wall replacement racks are assembled in minutes, creating a stable rack sized air flow barrier, that can be positioned anywhere and re-used again and again.

Assembled from flat sheet, EziBlank[®] Wall panels build quickly into a strong, stable triangular structure. Each individual rack consists of 1 sheet of 2315mm x 2180mm. Easily construct a full height rack in seconds.

Pack of 2. Call for special quantity discount pricing.

3 IN 1 value!

3 Sizes in one Rack.

Simply "rotate" the EZIBLANK[®]/WALL Rack,

to obtain the correct rack width, either 600mm, 750mm or 800mm.

Replacement Racks for Containment Installations.
Prevent hot air recirculation in an existing hot or cold containment aisle, or just block an open rack space...

*..just rotate to suit
your desired rack width...*
